

Base Part Number

SFP+-FC16-SW

Product Features

- Form Factor SFP+
- Speed 14.025 Gbps
- Distance 100m
- Operating Temperature Commercial: 0°C to +70°C
- Connector Type Duplex LC
- Fiber Type MMF

Brand Compatibility

Applications

- Tri-Rate 4.25/8.5/14.025 Gbps Fibre

OEM Equivalent Part Number

Key Specifications

Part Type	Max Data Rate	Fiber Type	Transmitter	Output Power	Receiver Sensitivity	Power Supply	Power Dissipation	DDM
SFP+-FC16-SW	14.025 Gbps	MMF	850nm VCSEL	-6 to -1.2dBm	-10.5dBm	3.3V	1W	Yes

Compliance

SFF-8431, SFF-8472

Qualifications and Testing

- **Manufacturer:** OEM equivalent part; designed, tested, fabricated to supplier specifications following ISO certified processes. RoHS compliant & class 1 laser certified.
- **Supplier:** 100% compatibility tested in the listed brands.
- **Order:** All parts are tested for traffic functionality per supported layer 2/3 protocol, DOM/DDM threshold and calibration, EEPROM MSA value verification, serial number verification & optical cleanliness.

Warranty

- Lifetime replacement warranty
